Total attendance 568 individuals

www.nldg2015.eventbrite.co.uk

Eventbrite registration - 417 pre-registered individuals of which 325 checked in on the day with another 137 registering on the day at Salt Ayre.

The 2015 Information day was again a fantastic success running at Salt Ayre Sports Centre with the support and some funding from Lancashire County Council and from the Witherslack Group specialist schools. The support from the staff at Salt Ayre every year is brilliant. The staff involved with setting up and cleaning up on the day also deserve a huge thank you!

R Leisure Hire very kindly offered us a special rate for the use of their inflatable and soft play equipment. Twisty Paul Balloon Modeller also attended and created some amazing balloons for the kids (and not so grown ups!).

Huge thanks also to Preston City Trampolining Club who came up to run the trampoline sessions for us. The smiles on the children's faces were amazing!

We used the treasure hunt maps again this year kindly organised by Parent Partnership/IASS. These are a brilliant way to get the families around all the stalls and various activities on offer on the day.

The group decided to use the eventbrite website to promote the event again this year and also to encourage families to pre register their families details before arriving at the venue. This proved successful again this year and enables us to monitor the numbers of people attending. It also helps us to show how very much needed this event is!

University of Cumbria provided 20 very able and willing volunteers to support the event yet again this year which was very much appreciated by the event organisers, stall holders and families on the day. Without their help, the event would be extremely difficult to run.

Huge thanks must go to the team of organisers who pulled out all the stops this year to support the event and enabled so many people to come along and find information as well as have fun in a safe and understanding environment.

In order to run the event again, NLDG will need to do some fundraising.

To all the stall holders, local services, local businesses and individuals who gave up their time or donated something to support this event, a HUGE thank you on behalf of all the parents, carers, children and young people who attended and benefitted from the day.

To all the parents, carers and children who came, thank you SO much for coming and making the day fun, exciting and worthwhile!

We have a few things we need to do differently next year and a list of new organisations and activities we would like to include. Each year we find different groups and services to include, we hope to provide something for everyone and try our best to make it as fun as possible! On the whole, the day was a resounding success and the weather even brightened up for us!

Thank you for all your support, for answering the questions, filling out the forms, giving your suggestions. Most of all thanks for your kind words of thanks and making it all worth it.

Lucy Ellis

On behalf of

North Lancashire Directions Group

Greg Sykes - Lancaster City Council

Jill Marrs - Parent Partnership / IASS

Kim Campbell - Parent Partnership / IASS

Emma Egglestone - University of Cumbria

James Meeks - Firbank Children's Centre

Feedback from parents on the day

- The info/fun day was blinking brill!! Cerebra were amazing and are offering lots of support including a sleep specialist who will come and offer advice at home ... We didn't know most of these services were available to us.... Can't thank all those involved enough..... For the first time I felt completely relaxed taking Harry to a fun day..... Nobody batted an eyelid as he spun, hummed oh and had a Harry meltdown over the man with the balloons Can't wait for the next one xx
- 10X better this year, well done guys!
- We came from outside the local area and found the event very informative and was signposted to lots of very useful support agencies. A great day.
- Everybody has been very helpful
- Some stalls were only staffed by one person so if they were busy we couldn't get the stickers for the treasure hunt. This upset the children. - [we plan to put the stickers in a pot/ wallet on the front of the tables for families to help themselves next year.](#)
- Excellent experience well done
- Everything was organised in an organised manner.
- Got all the info I could have hoped for and more!
- Maybe include more info for adults. - [we plan to invite more adult services next year](#)
- The only problem is that it was difficult to speak to stall holders and contain the children!! Maybe next year we should bring someone to look after the children.
- Sports hall was cold - [we plan to make sure main doors will be closed well in advance to letting the public in.](#)
- Stalls were packing up early, not fully open til 4. - [we plan to officially end the day at 3 instead of 4 so families arrive in time and stall holders have enough time to get home afterwards.](#)
- Had a lovely chat with the lady from Cerebra and got lots of info off her on allsorts even an application for carers to get a free will wrote it was a fantastic day, looking forward to next year
- The lovely people from Hyper mobility were really helpful for me.
- Couldn't stop long but there was lots of great information about so many different groups and services as well as fun activities which the kids really enjoyed and it also is a chance to meet people who you talk to on Facebook but you haven't met before. Great for parents of newly diagnosed children who don't know where to start, well done Lucy and team
- Fabulous as usual, kids loved the mini beasts, trampolines and face painting. Lots of new info there and useful contacts made - so good to know you are not alone
- We thought the day was great for both children and parents my son loved seeing everyone and the use of apparatus very useful information we learned you can have a specialist swimming instructor.
- I LOVED the sensory area in the projectile hall. Great to be able to see/feel the things for sale and for kids to try them out as they can be expensive and I've bought things in the past which Henry has shown no interest in. I also love seeing so many familiar faces in one venue - every corner I turned there was someone to chat to I hadn't seen in ages and meeting their kids as well because we hear so much about each other's children but sometimes don't get to meet them. I managed to give advice to a few new parents and, as a stall holder, feeling you are doing something worthwhile and helping people...even if it's just 1 family...is a great feeling. Also loved the fruit stall.

Is there anything you would like to see in the Lancaster / Morecambe area?

- More to do with the kids
- More fun days
- A trampoline club in Morecambe / Lancaster - [Information on the Uni Of Cumbria sessions has been passed on to this family](#)
- Support groups for people with bi-polar and their carers family
- Easy access support
- Support groups
- Bikes
- More respite / days out for kids in the holidays - [details on Lancashire Break Time and Unique Kidz services have been passed on to this family.](#)
- More drama based activities - [We are approaching the Dukes Theatre and the Grand Theatre in Lancaster to discuss this further.](#)
- Bit more information for disabled sports in Morecambe - [We are approaching the local council to see what they can offer by means of a guide / more groups](#)
- More information for partially sighted children - [we are approaching the local Galloway's Society for the Blind charity for information on services for children.](#)
- More events like this one - [we are planning a family fun day or 2 this year to raise funds for next years Information day.](#)
- ADHD Support Group - [Information on ADHD Northwest and ADHD Lancashire as well as local support groups has been passed on to this family.](#)

What helped me the most about today?

- Understanding that there is help out there X2
- Talking to other families x2
- Explaining how the system works and breaking things down into concrete steps so I don't feel so overwhelmed.
- Realising I am NOT ALONE!
- Support groups
- Friends, courses
- Parent Partnership
- Finding Information
- Friends and talking!

What have you liked about today?

- Informative stalls
- Great to have so much help together in 1 place
- Everything!
- Good to see what others are providing
- Trampolines
- The kids liked doing the treasure hunt
- Seeing so many people in a similar situation, so left feeling less alone
- Eye opener!
- All of it FAB!

My biggest worry?

- When my child goes to secondary school
- The future
- The damage that challenging behaviour is doing to all my family
- He's already falling behind at school. What can I do to help him concentrate?
- What happens in the future
- Finding work after leaving school
- Transition to high school

What I need for my child now?

- School and professional health support
- Turning advice into practical, concrete help at home and school - ACTIONS NOT WORDS!
- More support
- A carer's assessment
- Support for his emotional needs
- An appointment at Longlands for CARE
- Direction for leaving school and finding work
- Specialist teaching in mainstream to be more available

What I think I might need for the future.

- Emotional support
- Help with transition to high school and being more independent
- Transition into high school
- More courses X5
- Emotional support for child and family
- More help and advice for children
- Better access to services in our area
- More help and advice on sensory issues
- Need information on the new EHCP
- More Autism based courses for parents
- Better access for our kids to life skills training
- Our voices to be heard
